Retail by the Numbers

Retail statistics for April 2021

From Statistics Canada's June 2021 retail trade release

RetailCouncil.org

- **Retail Trend Numbers:** Statistics Canada has a method that they report online for calculating trend numbers. RCC adds that trend calculation to its numbers.
- **Core-Retail Sales:** This category captures the types of retail sales most common among RCC members. Specifically, Core-Retail removes gasoline station and motor vehicle and parts sales from total retail sales by subtracting Statistics Canada NAICS 447 and 441 from NAICS 44-45.

1 | NATIONAL HIGHLIGHTS

Retail Sales Numbers

(updated monthly)

April 2021 retail sales growth was tremendous year over year in almost every sector. This was unsurprising, given that the YoY comparison was to one of the worst months the sector has experienced, the early depths of the pandemic in April 2020.

However, month over month, April 2021 showed significant declines from March 2021. This was especially true in sectors generally deemed non-essential, showing the impact of spring 2021 third wave lockdowns.

**Core retail sales
rose year over
year by +29.71%
in April 2021.**
